

Dr. Putnam has over twenty-five years experience in fields ranging from exploration to E.O.R. In addition to his research and operations background, he has had extensive experience in corporate management and professional training. Peter has worked on six continents and dealt with reservoirs ranging in age from Cambrian to Pliocene.

Peter E. Putnam

*Ph.D., Geology (1985)
M.Sc., Geology (1979)
B.Sc. (Honours) Geology (1977)*

Professional Experience

Present	<i>Petrel Robertson Consulting Ltd., Chairman and Director</i> Provides strategic oversight to the PRCL Board.
2000-2007	<i>Petrel Robertson Consulting Ltd., President</i> Oversees strategic and financial management of the corporation. Maintenance of technical activity with focus on consulting and non-exclusive studies of heavy oil and tar sand reservoirs, geoscience evaluation of Canadian gas opportunities and international prospect development. Peter has been an expert witness in several EUB regulatory hearings and international litigation proceedings. He has provided strategic advice to several firms and government agencies with regards to new exploration ventures, property acquisitions and tar sand development and sits on the boards of several private Canadian companies. Recently appointed to the Council of Energy Advisers of Gerson Lehrman, a New York financial investment research organization and re-appointed (2004) as an Adjunct Professor of Geology at the University of Calgary.
1987-2000	<i>Petrel Robertson Consulting Ltd., Executive Vice-President</i> <ul style="list-style-type: none">◆ Conception, management and marketing of major integrated exploration projects.◆ Consultant to several domestic and international companies concerning exploration and development ventures, strategies and technical approaches. These endeavors have included giant carbonate and clastic reservoirs (Venezuela, Mexico, Algeria), and a host of Paleozoic, Mesozoic and Tertiary reservoirs located throughout the world (Canada, U.S.A., Algeria, Kazakhstan, Yemen, Tunisia, Ecuador, Pakistan, Mexico, Peru, Mongolia, Gabon, Venezuela, Australia, Ukraine, China, Morocco, Egypt, Colombia, Indonesia, Italy).◆ Leader of several field and core seminars covering petroleum-related aspects of carbonate and clastic depositional processes, paleo-environments and stratigraphy.◆ Supervision of professionals and support staff, including all geoscience staff.◆ Corporate responsibilities include co-management of all operations, hiring, budgeting, and financial affairs.
1985	<i>Petrel Robertson Consulting Ltd., Project Manager</i> Responsible for design, implementation and coordination of non-exclusive and proprietary geological studies and integrated exploration projects.
1984	<i>Husky Oil Operations Ltd., Section Leader, Saskatchewan Exploration and Development Group, Heavy Oil Division</i> <ul style="list-style-type: none">◆ Responsible for geological and geophysical evaluations related to exploration and development of heavy oil in Saskatchewan and Manitoba.◆ Supervision of a team of 12 professionals.◆ Involvement with computerization of geological and petrophysical data in Lloydminster region.
1981	<i>Husky Oil Operations Ltd., Senior Geologist and Special Projects Coordinator, Heavy Oil Division</i> <ul style="list-style-type: none">◆ Responsible for the design, capture and manipulation of geological information from over 12,000 wells within a computerized data base.◆ Geological studies involving mineral transformations associated with high temperature enhanced oil recovery techniques.◆ Developed, expedited and ran in-house training program, including field trips and core seminars.
1979	<i>Husky Oil Operations Ltd., Project Geologist</i> Involved in assessment of clastic reservoirs in western Canada along with prospect and land sale evaluations and well site supervision.
